PROBLEM/ISSUE STATEMENT

City staff's code enhancement activities continue to identify language in the Sequim Municipal Code that requires or would benefit from amendment. Chapter 10.16, currently entitled "Arterials" is one such section of code. See Discussion below for details.

ATTACHMENTS

1. [Proposed amendment to Chapter 10.16 Arterials](#)
2. [Proposed ordinance](#)

DISCUSSION/ANALYSIS

Chapter 10.16 *Arterials* was reviewed during staff's code enhancement project and determined to be in need of an update. This chapter currently classifies several city streets arterials that are not classified as arterials according to the City's Transportation Master Plan and WSDOT's Functional Classification Map.

Staff has revised this section to correctly identify all City Streets that are classified as arterials according to the Transportation Master Plan and WSDOT's Functional Classification Map.

FINANCIAL IMPLICATIONS

None.

RECOMMENDATION

This code revision is presented as a first touch. Staff recommend that Council review the proposed language and provide staff with further direction. No public hearing is necessary. In case Council wishes to adopt the revision tonight, a proposed ordinance is included. Otherwise, the revision can be brought back at a future meeting for a second touch.

MOTION

None at this time.

OR

I move to adopt the ordinance 2022-_____ amending SMC Chapter 10.16 *Arterials*
